Dear Mr. Polivka:

We want to extend to you and your staff our thanks and appreciation for your installation of TemPark at our Wayne, Michigan, Oakville, Canada and Virginia Beach, Virginia vehicle storage areas. Your staff was very professional and their ability to complete the project in time and within budget is commendable.

TemPark proved to be a cost saving alternative to the use of multiple offsite vehicle storage lots that Ford Motor Company has used in the past for its new vehicle launches and proven to be the low cost alternative to our short and longer term needs for vehicle parking. TemPark has saved Ford Motor Company several million dollars by having a single site developed in a shorter time in lieu of the traditional multiple paved facilities we have utilized in the past.

We highly recommend Polivka International and your TemPark product and look forward to working with you and your staff on our future launches.

Sincerely,

Dean Anos
